

In the Claims:

Please amend the claims as follows:

1. (Twice Amended) A floral grouping display assembly, comprising:

a display surface;

a floral grouping having a bloom end and a stem end; and

a sheet of material wrapped about at least a portion of the stem end of the floral grouping so that the bloom end of the floral grouping is exposed, the sheet of material being releasably connected to the display surface to display the floral grouping on the display surface so that substantially the entire length of the wrapped floral grouping is visibly displayed on the display surface.

26. (Amended) The floral grouping display assembly of claim 1 wherein the display surface is a wall.

27. (Amended) The floral grouping display assembly of claim 1 wherein the display surface is a table top.

28. (Amended) A floral grouping display assembly, comprising:

a display surface;

a floral grouping having a bloom end and a stem end; and

a transparent sheet of material formed to define a container, the floral grouping disposed in the container with the bloom end of the floral grouping exposed,
